

# Etanolix 2.0

Etanolix 2.0 is a project financed by LIFE+, the financial instrument for the environment of the European Commission (LIFE12 ENV/SE/000529)

**Duration:** 1<sup>st</sup> July 2013 to 1<sup>st</sup> July 2017

**Total Budget:** 4 552 000 €

**EU contribution:** 1 682 920 €

**Objectives:** The goal with the LIFE+ project is to demonstrate that ethanol can be produced sustainably with extremely low carbon dioxide emissions since the raw material is a waste product, the technology is developed with respect to the environment and the synergies of the processes in an existing oil refinery.

**Project website:** [st1.se/Miljö & teknik/The Life+ Projectc](http://st1.se/Miljö_&_teknik/The_Life+_Projectc)

# Etanolix 2.0

Design and construction: 2013 - 2015

Commission and demonstration: 2013-2017

Production capacity: 5 000 m<sup>3</sup> ethanol/yr  
25 000 tonnes stillage/yr

CO<sub>2</sub>-reduction: > 90%
