Subject	Project acronym / Ref. No.	Date
<i>Deliverable under Action A.2</i>	Etanolix 2.0 for LIFE+ / LIFE12 ENV/SE/000529	30/06/2015

  

Issued by	Company / Department
Linda Werner (PM/Technical Manager)	St1 Refinery AB / Technical Department

### **Report on Contracts signed with suppliers of raw material and customers of stillage**

- In total 35 companies were visited for supply of feedstock. Contracts have been signed with twelve suppliers of feedstock. The volume contracted meets our demands.
- Discussions held with 5 companies as potential stakeholders for the stillage. Contracts are in place with two customers for the whole volume of the stillage.
- Contracts in place for two logistic solutions. One logistic company for long transports who transports goods out from Gothenburg and are usually empty on the return. For short transports and gathering of feedstock from stores there is an agreement with a garbage disposal company that uses dedicated vehicles for gathering and transporting feedstock to our unit.

*Due to commercial agreements we cannot share any of the contracts and the details.*
